Applications of Microsoft Excel in Analytical Chemistry By Stanley R. Crouch, F. James Holler

This supplement contains many spreadsheet exercises correlating directly with sections in the text. The exercises teach students how to use Microsoft Excel using applications from statistics, data analysis equilibrium calculations, curve fitting, and more. Operations include everything from basic arithmetic and cell formatting to Solver, Goal Seek, and the Data Analysis Toolpak. The authors show students how to use a spreadsheet to construct log diagrams and to plot the results. Statistical data treatment includes descriptive statistics, linear regression, hypothesis testing, and analysis of variance. Tutorial exercises include nonlinear regression such as fitting the Van Deemter equation, fitting kinetics data, determining error coefficients in spectrophotometry, and calculating titration curves. Additional features include solving complex systems of equilibrium equations and advanced graphical methods: error bars, charts with insets, matrices and determinants, and much more.

Editorial Review

About the Author

Stanley R. Crouch is Professor Emeritus at Michigan State University. He received his undergraduate and M.S. degrees from Stanford University and his Ph.D. in analytical chemistry from the University of Illinois. He is the recipient of the 2001 American Chemical Society Division of Analytical Chemistry Award in Chemical Instrumentation and the 1996 ACS Division of Analytical Chemistry Award for Excellence in Teaching.

F. James Holler is a Professor of Chemistry and recipient of the Alumni Association Great Teacher Award at the University of Kentucky. He received his Ph.D. from Michigan State University. In addition to his role as co-author of several best-selling texts, he is co-creator of the world-famous Periodic Table of Comic Books.

Users Review

From reader reviews:

Juan Harrell:

The book Applications of Microsoft Excel in Analytical Chemistry can give more knowledge and also the precise product information about everything you want. Why must we leave a very important thing like a book Applications of Microsoft Excel in Analytical Chemistry? Several of you have a different opinion about reserve. But one aim in which book can give many information for us. It is absolutely suitable. Right now, try to closer using your book. Knowledge or data that you take for that, you can give for each other; you may share all of these. Book Applications of Microsoft Excel in Analytical Chemistry has simple shape however you know: it has great and big function for you. You can appearance the enormous world by wide open and read a guide. So it is very wonderful.

Judith Lucas:

Nowadays reading books become more and more than want or need but also be a life style. This reading addiction give you lot of advantages. The advantages you got of course the knowledge the actual information inside the book in which improve your knowledge and information. The info you get based on what kind of book you read, if you want drive more knowledge just go with education and learning books but if you want sense happy read one along with theme for entertaining for example comic or novel. The particular Applications of Microsoft Excel in Analytical Chemistry is kind of reserve which is giving the reader capricious experience.

Nancy Brown:

People live in this new day of lifestyle always try to and must have the time or they will get great deal of stress from both lifestyle and work. So , when we ask do people have free time, we will say absolutely sure. People is human not really a robot. Then we request again, what kind of activity are you experiencing when

the spare time coming to an individual of course your answer will probably unlimited right. Then ever try this one, reading textbooks. It can be your alternative in spending your spare time, often the book you have read is usually Applications of Microsoft Excel in Analytical Chemistry.

Barbara Hall:

What is your hobby? Have you heard this question when you got students? We believe that that concern was given by teacher for their students. Many kinds of hobby, Every person has different hobby. And you also know that little person just like reading or as looking at become their hobby. You need to understand that reading is very important along with book as to be the factor. Book is important thing to incorporate you knowledge, except your own teacher or lecturer. You discover good news or update regarding something by book. Amount types of books that can you go onto be your object. One of them is actually Applications of Microsoft Excel in Analytical Chemistry.
