Editorial Review

About the Author

Reece has an A.B. in Biology from Harvard University, an M.S. in Microbiology from Rutgers University, and a Ph.D. in Bacteriology from the University of California, Berkeley. She taught biology at Middlesex County College and Queensborough Community College.

With a Ph.D. from Purdue University, Jean Dickey has been involved in teaching introductory biology labs since 1978. Her experience includes developing an investigative laboratory curriculum for a large enrollment non-majors course at Clemson University, as well as supervising TAs and lab preparations. Besides working with general biology students, she also teaches life science for elementary education majors. When Dr. Dickey is not with her students, daughters Katherine and Jessica keep her busy.

Users Review

From reader reviews:

Nancy Collins:

What do you think of book? It is just for students because they are still students or the item for all people in the world, the particular best subject for that? Just simply you can be answered for that problem above. Every person has several personality and hobby for every single other. Don't to be forced someone or something that they don't desire do that. You must know how great as well as important the book Campbell Biology & Modified MasteringBiology /eText ValuePack Access Card Package. All type of book can you see on many options. You can look for the internet solutions or other social media.

Jessica Hurst:
