Green Graphic Design By Celery Design Collaborative, Brian Dougherty

Can a graphic designer be a catalyst for positive change? *Green Graphic Design* reframes the way designers can think about the work they create, while remaining focused on cost constraints and corporate identity. Simple, eco-innovative changes are demonstrated in all phases of the design process, including:

- Picking projects
- Strategizing with clients
- Choosing materials for manufacture and shipping
- Understanding users
- Picking ink and paper for printing
- Binding
- Packing final products
- Building strong brands
- Working with clients to foster transparency and corporate social responsibility

Fully illustrated and packed with case studies of green design implementation, this reference guide more than inspires; a "sustainability scorecard" and a complete glossary of key terms and resources ensure that anyone in the design field can implement practical green solutions. *Green Graphic Design* is an indispensable resource for graphic designers ready to look to the future of their business and the environment.
