Oxford Textbook of Endocrinology and Diabetes Online By John Wass, Paul M. Stewart

Completely revised and updated since the publication of the highly-valued first edition in 2003, the *Oxford Textbook of Endocrinology and Diabetes* (2nd edition) provides an up-to-date, stimulating, and comprehensive account of endocrinology and diabetes. Containing first rate, pragmatic advice on diagnosis, and clear guidelines for recommended management; it also covers the scientific principles that underlie medical practice.

Each of the 254 chapters in the *Oxford Textbook of Endocrinology and Diabetes* is written by an internationally-acknowledge expert, relates basic science to evidence based guidelines and clinical management, and offers an outline of the controversies in the field. The textbook also contains over 700 illustrations, and numerous tables and boxes to complement the text.

The online version of the *Oxford Textbook of Endocrinology and Diabetes* contains the full text of the print edition (which can be browsed by the contents list or searched), links from references in the text to external sources (via PubMed, ISI, and CrossRef), and all figures and illustrations from the print edition, downloadable into PowerPoint.

Editorial Review

Review

Review from previous edition: "... this textbook addresses both basic science and clinical endocrinology in a very comprehensive way. It has been crafted, according to the editors, with a specific readership in mind, and with the aim of providing a clinical textbook. The result is very successful indeed. This book combines the efforts of scientists from around the world, and the editorial team have succeeded in finding the right balance..."

About the Author

John Wass is Consultant Endocrinologist in the Department of Endocrinology and Metabolism at Nuffield Orthopaedic Centre, Oxford, UK. Paul Stewart is Consultant Endocrinologist at Queen Elizabeth Medical Centre in Birmingham, UK.

Users Review

From reader reviews:

Michael Colburn:

Reading a e-book can be one of a lot of task that everyone in the world really likes. Do you like reading book therefore. There are a lot of reasons why people enjoy it. First reading a e-book will give you a lot of new info. When you read a guide you will get new information simply because book is one of several ways to share the information or maybe their idea. Second, reading a book will make a person more imaginative. When you reading through a book especially fictional book the author will bring you to definitely imagine the story how the character types do it anything.
