### The Man Who Collected Machen and Other Weird Tales By Mark Samuels

Cryptic and potent languages, bizarre cults, mysteries that span the gulf between life and death, occult influences that reverberate through history like a dying echo, irresistible cosmic decay, forces of nightmare that distort reality itself, gateways to worlds where esoteric knowledge rots the future. Here, from Mark Samuels, the author of *Glyphotech* and *Other Macabre Processes* and modern exemplar of mystical horror, is a collection of tales that forms a veritable Rosetta Stone for scholars of cosmic wonder and terror.
