Atlas of Feline Ophthalmology By Kerry L. Ketrington, Mary Belle Glaze

Successful management of eye disease relies on the veterinarian's ability to identify ocular features and distinguish pathologic changes. *Atlas of Feline Ophthalmology, Second Edition* is an invaluable diagnostic reference, providing high-quality color photographs for comparison with a presenting complaint. Presenting 394 photographs illustrating both normal and pathologic ocular conditions, this Second Edition offers a current, complete reference on ocular diseases, adding conditions recognized since publication of the first edition, a broader geographic scope, and many new images with improved quality.

Carefully designed for easy reference, the contents are divided into sections corresponding to specific anatomical structures of the eye. A useful appendix new to this edition groups figures by etiology, making it easy to find every image associated with a specific agent or disease. *Atlas of Feline Ophthalmology, Second Edition* is a useful tool aiding general practitioners in diagnosing eye disease in cats.

Editorial Review

Review

"This is a superb update of the previous edition. The beautiful photographs will give veterinary practitioners new tools for identifying and treating feline ophthalmic disease. This book will be very useful for both general practitioners and veterinary ophthalmologists." (*Doody's*, 30 August 2012)

"In summary, the 'Atlas of Feline Ophthalmology' provides a comprehensive collection of pictures of feline ocular diseases and is a useful addition to the library of veterinary ophthalmologists and veterinarians with a deeper interest in ophthalmology." (*Veterinary Record*, 18 August 2012)
