Case Studies in Modern Drug Discovery and Development From Wiley

Learn why some drug discovery and development efforts succeed . . . and others fail

Written by international experts in drug discovery and development, this book sets forth carefully researched and analyzed case studies of both successful and failed drug discovery and development efforts, enabling medicinal chemists and pharmaceutical scientists to learn from actual examples. Each case study focuses on a particular drug and therapeutic target, guiding readers through the drug discovery and development process, including drug design rationale, structure-activity relationships, pharmacology, drug metabolism, biology, and clinical studies.

Case Studies in Modern Drug Discovery and Development begins with an introductory chapter that puts into perspective the underlying issues facing the pharmaceutical industry and provides insight into future research opportunities. Next, there are fourteen detailed case studies, examining:

- All phases of drug discovery and development from initial idea to commercialization
- Some of today's most important and life-saving medications
- Drugs designed for different therapeutic areas such as cardiovascular disease, infection, inflammation, cancer, metabolic syndrome, and allergies
- Examples of prodrugs and inhaled drugs
- Reasons why certain drugs failed to advance to market despite major research investments

Each chapter ends with a list of references leading to the primary literature. There are also plenty of tables and illustrations to help readers fully understand key concepts, processes, and technologies.

Improving the success rate of the drug discovery and development process is paramount to the pharmaceutical industry. With this book as their guide, readers can learn from both successful and unsuccessful efforts in order to apply tested and proven science and technologies that increase the probability of success for

new drug discovery and development projects.

Editorial Review

Review

“This book will enrich the collection of medicinal chemists or pharmacologists involved in active drug discovery research, as well as students with a passion for pursuing a career in drug discovery.” (*Doody's*, 22 February 2013)

"A well-made glossary is available in the appendix, which defines the dozens of terms that a medicinal chemist will encounter in his/her career. . . This book demonstrates yet again the need for new, better medicines and the reasons for the high cost of drug research. An enjoyable read!." (*ChemMedChem*, 1 January 2013)

About the Author

Xianhai Huang, PhD, is a Principal Scientist at Merck Research Laboratories. Dr. Huang is the inventor or co-inventor on more than forty patents and patent applications. As a mentor in the Schering-Plough chemistry postdoctoral program, Dr. Huang and his group discovered novel synthetic applications of (diacetoxyiodo) benzene and successfully applied the methodology to the total synthesis of psymberin, an antitumor natural product.

Robert G. Aslanian, PhD, is an adjunct professor of chemistry at William Paterson University and was formerly a Senior Director of Medicinal Chemistry with the Schering-Plough Research Institute and Merck Research Laboratories. Dr. Aslanian has over twenty-five years of experience in the pharmaceutical industry. He is co-inventor on thirty-eight U.S. patents and coauthor on sixty-seven scientific articles and reviews.

Users Review

From reader reviews:

Kathryn Sheffield:

Have you spare time for just a day? What do you do when you have more or little spare time? Sure, you can choose the suitable activity with regard to spend your time. Any person spent their particular spare time to take a walk, shopping, or went to typically the Mall. How about open or read a book entitled Case Studies in Modern Drug Discovery and Development? Maybe it is to be best activity for you. You know beside you can spend your time with the favorite's book, you can more intelligent than before. Do you agree with their opinion or you have some other opinion?

Bethany Hall:

Do you have something that you want such as book? The book lovers usually prefer to decide on book like comic, small story and the biggest some may be novel. Now, why not trying Case Studies in Modern Drug Discovery and Development that give your satisfaction preference will be satisfied by means of reading this

book. Reading practice all over the world can be said as the means for people to know world a great deal better than how they react towards the world. It can't be explained constantly that reading addiction only for the geeky particular person but for all of you who wants to always be success person. So , for all you who want to start looking at as your good habit, it is possible to pick Case Studies in Modern Drug Discovery and Development become your starter.

Evita Young:

As a scholar exactly feel bored to reading. If their teacher asked them to go to the library or even make summary for some guide, they are complained. Just tiny students that has reading's heart and soul or real their leisure activity. They just do what the instructor want, like asked to the library. They go to there but nothing reading very seriously. Any students feel that examining is not important, boring in addition to can't see colorful photos on there. Yeah, it is to become complicated. Book is very important to suit your needs. As we know that on this age, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore , this Case Studies in Modern Drug Discovery and Development can make you feel more interested to read.

Robert King:

What is your hobby? Have you heard this question when you got learners? We believe that that question was given by teacher for their students. Many kinds of hobby, All people has different hobby. And you also know that little person like reading or as reading through become their hobby. You must know that reading is very important and also book as to be the thing. Book is important thing to provide you knowledge, except your current teacher or lecturer. You find good news or update in relation to something by book. Amount types of books that can you choose to adopt be your object. One of them is niagra Case Studies in Modern Drug Discovery and Development.
