Editorial Review

Review

"This is a well-written and stimulating book...The summaries of the relevant literature are very good; its critical comments are balanced and fair. Many economists will find it a useful book". Journal of Economic Literature

"...If one is looking for a single book that might safely be put into the hands of economics students to inform them about relevant developments in the philosophy of science, about the tradition of self-conscious appraisal in their own discipline, and about the empirical substance of what they will almost everywhere be taught as mainstream economics, then this is it." Neil De Marchi, The Economic Journal

About the Author

Blaug is Professor Emeritus, University of London, Professor Emeritus, University of Buckingham, UK and University of Amsterdam, The Netherlands.
