Editorial Review

About the Author

Eric Chaisson holds a doctorate in astrophysics from Harvard University, where he spent 10 years on the faculty of Arts and Sciences. For more than two decades thereafter, he served on the senior science staff at the Space Telescope Science Institute and held various professorships at Johns Hopkins and Tufts universities. He is now back at Harvard, where he teaches and conducts research at the Harvard-Smithsonian Center for Astrophysics. Eric has written 12 books on astronomy and has published nearly 200 scientific papers in professional journals.

Steve McMillan holds a bachelor's and master's degree in mathematics from Cambridge University and a doctorate in astronomy from Harvard University. He held postdoctoral positions at the University of Illinois and Northwestern University, where he continued his research in theoretical astrophysics, star clusters, and high-performance computing. Steve is currently Distinguished Professor of Physics at Drexel University and a frequent visiting researcher at Princeton's Institute for Advanced Study and Leiden University. He has published more than 100 articles and scientific papers in professional journals.

Users Review

From reader reviews:

Mary Richie:

Have you spare time for just a day? What do you do when you have much more or little spare time? Yeah, you can choose the suitable activity intended for spend your time. Any person spent all their spare time to take a walk, shopping, or went to often the Mall. How about open or even read a book titled Astronomy: The Universe at a Glance? Maybe it is being best activity for you. You understand beside you can spend your time with the favorite's book, you can better than before. Do you agree with the opinion or you have different opinion?

James Peterson:

Reading a book can be one of a lot of activity that everyone in the world adores. Do you like reading book and so. There are a lot of reasons why people like it. First reading a book will give you a lot of new info. When you read a reserve you will get new information due to the fact book is one of many ways to share the information as well as their idea. Second, examining a book will make a person more imaginative. When you looking at a book especially hype book the author will bring one to imagine the story how the personas do it anything. Third, you may share your knowledge to other individuals. When you read this Astronomy: The Universe at a Glance, it is possible to tells your family, friends and soon about yours e-book. Your knowledge can inspire the others, make them reading a guide.

David Mandujano:

Reading a publication tends to be new life style in this era globalization. With reading through you can get a lot of information that will give you benefit in your life. With book everyone in this world may share their idea. Textbooks can also inspire a lot of people. Lots of author can inspire all their reader with their story or even their experience. Not only situation that share in the ebooks. But also they write about the knowledge about something that you need illustration. How to get the good score toefl, or how to teach your children, there are many kinds of book that exist now. The authors on this planet always try to improve their talent in writing, they also doing some research before they write to their book. One of them is this Astronomy: The Universe at a Glance.

Louis Cline:

What is your hobby? Have you heard this question when you got college students? We believe that that issue was given by teacher to their students. Many kinds of hobby, All people has different hobby. So you know that little person such as reading or as looking at become their hobby. You have to know that reading is very important along with book as to be the factor. Book is important thing to increase you knowledge, except your teacher or lecturer. You get good news or update in relation to something by book. Different categories of books that can you choose to adopt be your object. One of them is this Astronomy: The Universe at a Glance.
