

Java WebSocket Programming (Oracle Press)

By Dr. Danny Coward

Java WebSocket Programming (Oracle Press) By Dr. Danny Coward

Master Application Development with Java WebSocket

Build dynamic enterprise Web applications that fully leverage state-of-the-art communication technologies. Written by the leading expert on Java WebSocket programming, this Oracle Press guide offers practical development strategies and detailed example applications. *Java WebSocket Programming* explains how to design client/server applications, incorporate full-duplex messaging, establish connections, create endpoints, handle path mapping, and secure data. You'll also learn how to encrypt Web transmissions and enrich legacy applications with Java WebSocket.

- Develop Web applications using the Java WebSocket API
- Create and publish annotated and programmatic endpoints
- Manage the lifecycle events of WebSocket endpoints
- Maintain reliable connections across the endpoint lifecycle
- Manage synchronous and asynchronous messaging
- Define encoding and decoding strategies for complex messaging
- Configure message timeouts, size limits, and exceptions
- Map message paths and route incoming URIs to Web containers
- Secure data, authenticate users, and encrypt connections

Editorial Review

About the Author

Danny Coward is a Chief Architect and Web Architect at Oracle. He is the Specification Lead for the Java API for WebSocket for Java EE and Java SE/JavaFX. Coward's work leading WebSockets at Oracle makes him the leading expert on Java WebSocket programming. Coward has specialized experience in all aspects of Java software?from Java ME to Java EE to the founding of the JavaFX technology.

Users Review

From reader reviews:

Greg Wilson:

In other case, little individuals like to read book Java WebSocket Programming (Oracle Press). You can choose the best book if you want reading a book. So long as we know about how is important any book Java WebSocket Programming (Oracle Press). You can add expertise and of course you can around the world with a book. Absolutely right, mainly because from book you can realize everything! From your country until foreign or abroad you may be known. About simple point until wonderful thing you can know that. In this era, we can easily open a book or searching by internet gadget. It is called e-book. You can use it when you feel bored stiff to go to the library. Let's go through.

Phillip Patten:

What do you consider book? It is just for students since they're still students or that for all people in the world, what best subject for that? Just you can be answered for that query above. Every person has diverse personality and hobby for each and every other. Don't to be compelled someone or something that they don't want do that. You must know how great in addition to important the book Java WebSocket Programming (Oracle Press). All type of book is it possible to see on many solutions. You can look for the internet resources or other social media.

Jay Blanchard:

Can you one of the book lovers? If yes, do you ever feeling doubt if you find yourself in the book store? Try and pick one book that you just dont know the inside because don't assess book by its cover may doesn't work here is difficult job because you are scared that the inside maybe not seeing that fantastic as in the outside appear likes. Maybe you answer is usually Java WebSocket Programming (Oracle Press) why because the great cover that make you consider with regards to the content will not disappoint you actually. The inside or content will be fantastic as the outside or even cover. Your reading 6th sense will directly guide you to pick up this book.

Rodolfo Rodgers:

Is it an individual who having spare time then spend it whole day by means of watching television programs or just lying down on the bed? Do you need something totally new? This Java WebSocket Programming (Oracle Press) can be the reply, oh how comes? The new book you know. You are thus out of date, spending your extra time by reading in this fresh era is common not a geek activity. So what these textbooks have than the others?
