Professional C# (2nd Edition) By Simon Robinson, Burt Harvey, Christian Nagel, Ollie Cornes, Karli Watson, Morgan Skinner, Jay Glynn, Zach Greenvoss, Scott Allen

It is no exaggeration to describe the C# language and its associated environment, the .NET Framework, as the most important new technology for developers in many years. .NET provides a new environment within which you can develop almost any Windows-based or web-based application, while C# is a new programming language designed specifically to work with .NET.

Entirely revised and updated for the Golden Release of .NET, Professional C# 2nd Edition is the ideal introduction to the C# language and the .NET Framework, and will become an indispensable companion for any user of C# and .NET.

Offering an unparalleled breadth and depth of coverage, this book provides the information that you need to learn the key concepts of the C# language, and then takes you on to a complete exploration of programming the .NET Framework with C#, so that you are ready to develop powerful C# applications in the .NET environment.

Topics covered include:

- How to program in the object-oriented C# language
- Writing Windows applications and Windows services
- Writing web pages and web services with ASP.NET
- Manipulating XML using C#
- Understanding .NET Assemblies
- Using ADO.NET to access databases
- Integration with COM, COM+, and Active Directory
- Distributed applications with .NET Remoting

- Generating graphics, and printing documents using C#
- Accessing the Internet with C#, and network programming
- Handling files and the Registry, and controlling .NET security

Editorial Review

From the Publisher

This book is aimed at experienced developers, probably coming from a C++, Java, or VB background, but no previous experience of C# or .NET programming is assumed.

This book will provide the ideal introduction to writing C# programs on the .NET Framework for developers who are serious about C#, and want all the facts, now.

Users Review

From reader reviews:

Jo Lee:

What do you concerning book? It is not important together with you? Or just adding material when you want something to explain what the one you have problem? How about your free time? Or are you busy particular person? If you don't have spare time to complete others business, it gives you the sense of being bored faster. And you have time? What did you do? All people has many questions above. They need to answer that question simply because just their can do that will. It said that about e-book. Book is familiar on every person. Yes, it is proper. Because start from on guardería until university need this specific Professional C# (2nd Edition) to read.

Jeremy Turner:

Reading a reserve tends to be new life style in this particular era globalization. With studying you can get a lot of information that could give you benefit in your life. With book everyone in this world can easily share their idea. Guides can also inspire a lot of people. Lots of author can inspire their very own reader with their story or maybe their experience. Not only the storyline that share in the publications. But also they write about the data about something that you need example of this. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book that exist now. The authors in this world always try to improve their talent in writing, they also doing some investigation before they write to their book. One of them is this Professional C# (2nd Edition).

Eunice Huynh:

A lot of people always spent their very own free time to vacation as well as go to the outside with them family members or their friend. Did you know? Many a lot of people spent many people free time just watching TV, or maybe playing video games all day long. In order to try to find a new activity that is look different you can read any book. It is really fun for yourself. If you enjoy the book you read you can spent the entire day to reading a guide. The book Professional C# (2nd Edition) it is extremely good to read. There are a lot of those who recommended this book. These were enjoying reading this book. In case you did not

have enough space to deliver this book you can buy the actual e-book. You can more quickly to read this book from your smart phone. The price is not too expensive but this book has high quality.

Sarah Petty:

Do you really one of the book lovers? If so, do you ever feeling doubt when you find yourself in the book store? Aim to pick one book that you never know the inside because don't assess book by its include may doesn't work this is difficult job because you are scared that the inside maybe not while fantastic as in the outside look likes. Maybe you answer can be Professional C# (2nd Edition) why because the excellent cover that make you consider in regards to the content will not disappoint anyone. The inside or content will be fantastic as the outside as well as cover. Your reading 6th sense will directly guide you to pick up this book.
