### **The Giza Power Plant : Technologies of Ancient Egypt** By Christopher Dunn

Did a highly advanced civilization exist in prehistory? Is the Giza Pyramid a remnant of their technology? Then, what was the power source that fueled such a civilization? The technology of harmonic resonance, claims renowned master craftsman and engineer Christopher Dunn. In a brilliant piece of reverse engineering based on twenty years of research, Dunn reveals that the Great Pyramid of Giza was actually a large acoustical device! By its size and dimensions, this crystal edifice created a harmonic resonance with the Earth and converted Earth's vibrational energies to microwave radiation. The author shows how the pyramid's numerous chambers and passageways were positioned with the deliberate precision to maximize its acoustical qualities. This may be the same technology discovered by Nikola Tesla and the solution to our own clean energy needs.

### Editorial Review

#### Amazon.com Review

Suspicion naturally arises when you read a promo line on a back cover that says, "This is the most important book concerning the Great Pyramid written in the last 20 years." In this case, however, it may be fact. In writing *The Giza Power Plant*, mechanical engineer Christopher Dunn reverse-engineered the Great Pyramid at Giza to discover its use. His startling conclusions blow the heck out of traditional Egyptology's rather silly notions that it was built with copper tools by a society that lacked the wheel. While revisionist pyramid studies are rife with ridiculous theories that give the topic a bad name, *The Giza Power Plant* takes into account existing fact and artifact without having to rely on unprovable assertions. A must-read for truth seekers who aren't afraid to consider the idea that Western culture of the 21st century may not be the pinnacle of human evolution and achievement. --P. Randall Cohan

#### Review

"Chris Dunn ranks among the top researchers on this subject. His book is extremely well-researched and presented and, although very controversial in content and conclusions, will no doubt become a landmark and classic in the field of pyramid studies." (*Robert G. Bauval, coauthor of The Orion Mystery*)

Did a highly advanced civilization exist in prehistory? Is the Giza Pyramid a remnant of their technology? Then, what was the power source that fueled such a civilization? The technology of harmonic resonance, claims renowned master craftsman and engineer Christopher Dunn.

In a brilliant piece of reverse engineering based on twenty years of research, Dunn reveals that the Great Pyramid of Giza was actually a large acoustical device! By its size and dimensions, this crystal edifice created a harmonic resonance with the Earth and converted Earth's vibrational energies to microwave radiation.

The author shows how the pyramid's numerous chambers and passageways were positioned with the deliberate precision to maximize its acoustical qualities. This may be the same technology discovered by Nikola Tesla and the solution to our own clean energy needs.

"Chris Dunn has provided us a valuable addition to the growing body of knowledge concerning the recovery of Ancient Wisdom. This is the most important book concerning the Great Pyramid written in the last twenty years."

--Stephen S. Mehler, M.A., Director of Research, *Kinnaman Foundation*

"First West and Schoch redate the Sphinx, then Bauval finds Orion in the Pyramids. Now Dunn demonstrates that Egyptian artifacts were machined out of stone. Egyptology will never be the same."

--Jeffery D. Kooistra, *Analog Science Fiction and Fact Magazine*

CHRISTOPHER DUNN is a master craftsman and engineer with thirty-five years of experience. In the last

twenty years, he has published a dozen magazine articles on his theories about ancient technology, including the much quoted *Advanced Machining in Ancient Egypt* in *Analog*. Dunn lives with his wife and children in Danville, Illinois.
