Editorial Review

Review

"It is intended as a quick reference guide for commonly performed blocks. The main focus is on perioperative anesthetic care. The text is well supported by plenty of images to act as visual guide. The online version makes the book accessible 24/7, and it is extremely easy to navigate."

-Tariq M. Malik, MD (University of Chicago Pritzker School of Medicine) for Doody's Review Service

Users Review

From reader reviews:

Edward Emory:

What do you about book? It is not important along? Or just adding material when you want something to explain what yours problem? How about your extra time? Or are you busy person?
