Editorial Review

Review

By understanding how the subconscious mind works, you can learn how dreams become reality. Dr Joseph Murphy spent a good part of his life studying eastern religions and was a scholar of the I Ching, the Chinese book of divination. He was also, for 28 years, minister at the Los Angeles branch of the Church of Divine Science, a New Thought church that promotes a practical spirituality, free of religious creed and dogma. He believed he had found secrets concerning the subconscious that were beyond time and culture. Many people say their lives were not the same after reading this book. The subconscious is powerful and what you get from Murphy is the realisation that unless you try to understand the non-rational mind, your rational desires and plans will be forever sabotaged. --BN Publishing
