The Swiss Alps (World Mountain Ranges) By Kev Reynolds

This, the latest volume in Cicerone's World Mountain Ranges series, is a unique planning resource for anyone preparing to explore the mountains of the Swiss Alps, providing all the information needed for a variety of mountainous pursuits - walking, hiking, climbing or ski mountaineering.

Covering each mountain area in Switzerland, the guide describes all the country's major peaks, passes and valleys to help readers choose the best locations to indulge their love of the outdoors. There is comprehensive information on all the key centres: Grindelwald, St Moritz, Zermatt and many, many more.

Detailing access, accommodation and facilities in valley bases as well as pinpointing mountain huts, all the necessary information on where to stay is included. Classic walks and climbs in all areas are identified and major hut-to-hut trekking routes are outlined.

Although aimed at outdoor enthusiasts of all standards, the guide gives climbing grades where appropriate and multi-day hiking routes are also outlined for the more experienced.

A well-illustrated guide with scores of expertly-drawn maps, this is the essential guide for active visitors to one of Europe's most mountainous countries.

Editorial Review

About the Author

Kev Reynolds is a freelance writer, photojournalist and lecturer. A prolific compiler of guidebooks, his first title for Cicerone Press appeared in 1978; he has since produced 27 titles for Cicerone, with others being researched. A member of the Outdoor Writers' Guild, the Alpine Club and Austrian Alpine Club, his passion for mountains and the countryside remains undiminished, and he regularly travels throughout Britain to share that enthusiasm through his lectures.

Users Review

From reader reviews:

Phillip Ruiz:

The book The Swiss Alps (World Mountain Ranges) give you a sense of feeling enjoy for your spare time. You may use to make your capable much more increase. Book can being your best friend when you getting stress or having big problem using your subject. If you can make reading a book The Swiss Alps (World Mountain Ranges) to be your habit, you can get much more advantages, like add your current capable, increase your knowledge about a few or all subjects. It is possible to know everything if you like wide open and read a guide The Swiss Alps (World Mountain Ranges). Kinds of book are a lot of. It means that, science guide or encyclopedia or other individuals. So , how do you think about this book?

Rodney Wilson:

The reason? Because this The Swiss Alps (World Mountain Ranges) is an unordinary book that the inside of the guide waiting for you to snap the item but latter it will shock you with the secret the item inside. Reading this book close to it was fantastic author who have write the book in such incredible way makes the content within easier to understand, entertaining way but still convey the meaning totally. So , it is good for you because of not hesitating having this any longer or you going to regret it. This excellent book will give you a lot of gains than the other book possess such as help improving your skill and your critical thinking means. So , still want to hold up having that book? If I ended up you I will go to the reserve store hurriedly.

Shawn Jones:

Do you like reading a e-book? Confuse to looking for your favorite book? Or your book was rare? Why so many question for the book? But virtually any people feel that they enjoy to get reading. Some people likes studying, not only science book but novel and The Swiss Alps (World Mountain Ranges) or others sources were given information for you. After you know how the truly great a book, you feel want to read more and more. Science book was created for teacher or students especially. Those publications are helping them to bring their knowledge. In different case, beside science book, any other book likes The Swiss Alps (World Mountain Ranges) to make your spare time considerably more colorful. Many types of book like this.

Michael Santiago:

A lot of reserve has printed but it differs. You can get it by web on social media. You can choose the best book for you, science, witty, novel, or whatever simply by searching from it. It is named of book The Swiss Alps (World Mountain Ranges). You can include your knowledge by it. Without making the printed book, it could possibly add your knowledge and make you happier to read. It is most significant that, you must aware about e-book. It can bring you from one location to other place.
