Financial Management in the Sport Industry By Matthew T Brown, Daniel Rascher, Mark S Nagel, Chad Mcevoy

Financial Management in the Sport Industry provides readers with an understanding of sport finance and the importance of sound financial management in the sport industry. It begins by covering finance basics and the tools and techniques of financial quantification, using current industry examples to apply the principles of financial management to sport. It then goes beyond the basics to show how financial management works specifically in sport---how decisions are made to ensure wealth maximization. Discussions include debt and equity financing, capital budgeting, facility financing, economic impact, risk and return, time value of money, and more. The final section focuses on sport finance in three sectors of the industry---public sector sports, collegiate athletics, and professional sport---providing in-depth analysis of financial management in each sector. Sidebars, case studies, concept checks, and practice problems throughout provide practical applications of the material and enable thorough study and practice.

The business of sport has changed dynamically since the publication of the first edition, and this second edition reflects the impact of these changes on financial management in the sport industry. New to this edition are changes to reflect the global nature of sport (with, for example, discussions of income tax rates in the Premiere League), expanded material on the use of spreadsheets for financial calculations, a primer on accounting principles to help students interpret financial statements, a valuation case study assignment that takes students step by step through a valuation, a new stadium feasibility analysis using the efforts of the Oakland Raiders to obtain a new stadium, a new economic impact example focusing on the NBA All Star game, and much more.

Editorial Review

Review

"I think the authors have done a nice job presenting an adequate amount of background information and spending the majority of the pages focusing on these concepts in a sport-specific context. . . . [They] have presented tremendous depth in a variety of very important areas of sport finance that have never before been presented to the field of sport management." --Joris Drayer, University of Memphis

"The strength of the book is the focus on financial management. . . . I have seen other finance books that offer examples but provide little else to help understand their meaningfulness." --Michael Mondello, Florida State University

"Great balance of financial management with revenue generation written for the non-accountant." --Sonja Lilienthal, San Jose State University

About the Author

Matthew T. Brown, Ed.D., is an associate professor in the Department of Sport and Entertainment Management at the University of South Carolina. He teaches graduate and undergraduate sport finance courses and conducts research in the areas of sport finance and sport business. His current research focus is on the changing business practices of Asian professional sports leagues. His research has led to publications in the *Journal of Sport Management*, *Sport Marketing Quarterly*, *Entertainment and Sport Law Journal*, the *International Journal of Sport Finance*, and *Sport Management Review*. In addition, he has presented his research at more than 50 national and international venues.

Daniel Rascher, Ph.D., teaches and conducts research on sports business topics and serves as a consultant to the sports industry. He specializes in economics and finance; more specifically, his focus is on industrial organizations, antitrust, mergers and acquisitions, valuation, economic impact, market readiness, feasibility research, marketing research, damage analysis, strategy, and labor issues in the sports industry. He founded SportsEconomics to enable sports enterprises to capitalize on the sports industry's transition from hobby status to a multi-billion-dollar industry. As founder and president of SportsEconomics, LLC, managing partner at OSKR, LLC, and former principal at LECG, LLC, his clients have included organizations involved with the NBA, NFL, MLB, NHL, NASCAR, MLS, PGA, NCAA, minor league baseball, NHRA, Formula One racing, Champ Car racing, AHL, Premier League Football (soccer), professional cycling, the media, IHRSA, as well as sports commissions, local and state governments, convention and visitors bureaus, entrepreneurs, and business-to-business enterprises. He received his doctorate in economics from the University of California at Berkeley. He is the director of academic programs and an associate professor for the Sport Management Program at the University of San Francisco, where he teaches courses in sports economics and finance and sports business research methods.

Mark S. Nagel, Ed.D., is an associate professor in the Department of Sport and Entertainment Management at the University of South Carolina. Before joining USC, he was the director of the graduate sport management program at Georgia State University. There, he was responsible for all aspects of the sport management program, including recruiting and advising students, developing and scheduling courses, identifying and supervising adjunct faculty, and maintaining alumni and sport business relationships. He has also worked in sport management programs at the University of West Georgia and San Jose State University. Nagel also serves as an adjunct faculty member at the University of San Francisco and St. Mary's College

where he teaches summer courses in sport administration. Before working in academia, Nagel worked in different areas of sport management, primarily in athletic coaching and administration as well as campus recreation. During his years as an assistant coach of the women's basketball team at the University of San Francisco, he helped lead the team to three NCAA Tournament appearances and a spot in the 1996 Sweet 16.

Chad D. McEvoy, Ed.D., is an associate professor at Illinois State University, where he is the coordinator of the sport management graduate program. Prior to pursuing a career in academia, McEvoy worked in marketing and fund raising in intercollegiate athletics at Iowa State University and Western Michigan University. He has conducted research projects for clients at various level of sport, including professional sport, intercollegiate athletics, Olympic sport, and sports agency organizations. McEvoy received his doctorate from the University of Northern Colorado.

Users Review

From reader reviews:

Wendy Brame:

Do you have favorite book? If you have, what is your favorite's book? E-book is very important thing for us to be aware of everything in the world. Each guide has different aim or perhaps goal; it means that publication has different type. Some people feel enjoy to spend their time and energy to read a book. These are reading whatever they take because their hobby is reading a book. How about the person who don't like reading through a book? Sometime, person feel need book whenever they found difficult problem as well as exercise. Well, probably you will need this Financial Management in the Sport Industry.

Edward Brown:

Here thing why this kind of Financial Management in the Sport Industry are different and trustworthy to be yours. First of all studying a book is good nonetheless it depends in the content of computer which is the content is as delicious as food or not. Financial Management in the Sport Industry giving you information deeper since different ways, you can find any book out there but there is no publication that similar with Financial Management in the Sport Industry. It gives you thrill studying journey, its open up your eyes about the thing that will happened in the world which is probably can be happened around you. It is easy to bring everywhere like in park your car, café, or even in your way home by train. If you are having difficulties in bringing the published book maybe the form of Financial Management in the Sport Industry in e-book can be your alternate.

Evelyn Montgomery:

Nowadays reading books become more than want or need but also work as a life style. This reading behavior give you lot of advantages. The benefits you got of course the knowledge your information inside the book which improve your knowledge and information. The data you get based on what kind of book you read, if you want get more knowledge just go with education books but if you want experience happy read one with theme for entertaining for example comic or novel. Typically the Financial Management in the Sport Industry is kind of reserve which is giving the reader unstable experience.

Lorene Williamson:

The actual book Financial Management in the Sport Industry has a lot of knowledge on it. So when you read this book you can get a lot of benefit. The book was compiled by the very famous author. Tom makes some research before write this book. This book very easy to read you can obtain the point easily after reading this book.
