Adaptive Phased Array Thermotherapy for Cancer By Senior Staff Alan J Fenn

Book Information Adaptive microwave phased array antennas are well known for their ability to improve the performance of communications and radar systems. And now, adaptive phased array techniques are beginning to be successfully applied to RF and microwave thermotherapy treatment of cancerous tumors. This groundbreaking book details innovative phased array techniques currently being developed at the MIT Lincoln Laboratory for cancer treatment. Until now, this material has only been available in Lincoln Laboratory reports and peer-reviewed journals. From electromagnetic field theory for tissue heating... to simulations of adaptive phased array thermotherapy for deep tumors of the torso... to coverage of arrays for tumors in the head, neck, breast, and chest wall, this timely resource offers the expert guidance engineers and researchers need to work in this emerging area. Readers also find an insightful look at future research topics for adaptive phased array thermotherapy.

Editorial Review

About the Author

Alan J. Fenn is a senior staff member at the ISR Systems Group at MIT Lincoln Laboratory. Dr. Fenn holds an M.Sc. and Ph.D. in electrical engineering from Ohio State University. He is also the author of Adaptive Antennas and Phased Arrays for Radar and Communications (Artech House 2008).

Users Review

From reader reviews:

Jeffrey Sandoval:

Why don't make it to be your habit? Right now, try to ready your time to do the important work, like looking for your favorite guide and reading a reserve. Beside you can solve your long lasting problem; you can add your knowledge by the publication entitled Adaptive Phased Array Thermotherapy for Cancer. Try to stumble through book Adaptive Phased Array Thermotherapy for Cancer as your friend. It means that it can to be your friend when you experience alone and beside associated with course make you smarter than in the past. Yeah, it is very fortunated in your case. The book makes you considerably more confidence because you can know almost everything by the book. So , let me make new experience as well as knowledge with this book.

Raymond Striegel:

In this 21st one hundred year, people become competitive in each way. By being competitive currently, people have do something to make them survives, being in the middle of typically the crowded place and notice by surrounding. One thing that oftentimes many people have underestimated this for a while is reading. Yes, by reading a book your ability to survive raise then having chance to stand than other is high. For you personally who want to start reading a new book, we give you this specific Adaptive Phased Array Thermotherapy for Cancer book as beginning and daily reading book. Why, because this book is usually more than just a book.

Allen Reilley:

Are you kind of occupied person, only have 10 as well as 15 minute in your morning to upgrading your mind expertise or thinking skill actually analytical thinking? Then you are receiving problem with the book than can satisfy your small amount of time to read it because pretty much everything time you only find guide that need more time to be go through. Adaptive Phased Array Thermotherapy for Cancer can be your answer mainly because it can be read by an individual who have those short free time problems.

Ryan Harrison:

You could spend your free time to study this book this guide. This Adaptive Phased Array Thermotherapy for Cancer is simple to develop you can read it in the park your car, in the beach, train and soon. If you did not get much space to bring the actual printed book, you can buy often the e-book. It is make you quicker to read it. You can save the particular book in your smart phone. Therefore there are a lot of benefits that you will get when you buy this book.
