Harnessing the Power of Equine Assisted Counseling: Adding Animal Assisted Therapy to Your Practice From Routledge

This book will help licensed professional counselors incorporate Equine Assisted Counseling (EAC) into their practices, even those who have little prior experience working with horses. It provides a strong research foundation for understanding the efficacy of equine assisted interventions and the potentially powerful impact that a horse can have in creating a new counseling dynamic. Chapters address using horses to help clients dealing with various traumas and abuse, anxiety, depression, atypical behaviors, and social skills and communication issues. Additionally, a chapter by the internationally renowned "horse whisperer" Pat Parelli offers a look at EAC from the horse's point of view and demonstrates developing a relationship with a therapy horse in a positive, safe, and respectful manner. Counselors will find this a valuable resource for understanding and utilizing EAC as a new resource in their own practices, as will students seeking to learn about this innovative approach.
