Editorial Review

About the Author

Michele Davis, a career writer since she was eight years old, has owned a technical writing and software training company since 1988. Michele contributed to the "HTML Bible 4.0" (Wiley).

Jon Phillips is a software developer who works with Oracle 9i, Oracle Financials and HRMS. Jon creates the backend of web sites that Michele designs and writes. Jon uses PHP and MySQL for numerous clients that want a database or web site interaction, such as forms. Both Michele and Jon are members of a PHP list serve.

Users Review

From reader reviews:

Lawrence Rector:

Exactly why? Because this Learning PHP and MySQL is an unordinary book that the inside of the e-book waiting for you to snap the item but latter it will distress you with the secret the idea inside. Reading this book beside it was fantastic author who also write the book in such amazing way makes the content within easier to understand, entertaining approach but still convey the meaning fully. So , it is good for you because of not hesitating having this any longer or you going to regret it. This phenomenal book will give you a lot of benefits than the other book have got such as help improving your skill and your critical thinking approach. So , still want to hesitate having that book? If I had been you I will go to the publication store hurriedly.

Micheal Ruiz:

Playing with family in the park, coming to see the sea world or hanging out with friends is thing that usually you could have done when you have spare time, and then why you don't try factor that really opposite from that. One particular activity that make you not sense tired but still relaxing, trilling like on roller coaster you are ride on and with addition of information. Even you love Learning PHP and MySQL, you are able to enjoy both. It is great combination right, you still wish to miss it? What kind of hang type is it? Oh can happen its mind hangout people. What? Still don't obtain it, oh come on its referred to as reading friends.

Cecilia Moore:

Many people spending their moment by playing outside having friends, fun activity with family or just watching TV 24 hours a day. You can have new activity to enjoy your whole day by examining a book. Ugh, ya think reading a book can definitely hard because you have to use the book everywhere? It fine you can have the e-book, having everywhere you want in your Mobile phone. Like Learning PHP and MySQL which is having the e-book version. So , why not try out this book? Let's see.

Mildred Vang:

Is it you actually who having spare time after that spend it whole day simply by watching television programs or just lying on the bed? Do you need something new? This Learning PHP and MySQL can be the solution, oh how comes? A fresh book you know. You are thus out of date, spending your spare time by reading in this fresh era is common not a geek activity. So what these books have than the others?
