**Mortal Brother (An Unbounded Novella)** By Teyla Branton

### Love and Duty—Both Can Get You Killed

Pilot Chris Radkey’s only job in the Mexican jungle is to look after the plane while his Unbounded siblings retrieve a desperately needed cure. It was supposed to be easy. Much easier than seeing his wife murdered by an Emporium hit team, leaving behind two motherless children.

Chris soon finds himself using every ounce of his Renegade training in a desperate struggle to secure dangerous Emporium captives and to save the life of a friend. His “easy” job has become a nightmare, one he may not survive. But the woman he cares about needs him, and he won’t allow anything to stand in his way.

Please note: *Mortal Brother* is not as long as the books from Erin's viewpoint. This tie-in to series can be enjoyed at any time. However, the events take place in the Unbounded timeline simultaneously with *The Cure (Unbounded Book 2)* and extend several days past that novel, so readers may better appreciate *Mortal Brother* after reading *The Cure*.

## **Editorial Review**

### **About the Author**

Teyla Branton grew up avidly reading science fiction and fantasy and watching Star Trek reruns with her large family. They lived on a little farm where she loved to visit the solitary cow and collect (and juggle) the eggs, usually making it back to the house with most of them intact. On that same farm she once owned thirty-three gerbils and eighteen cats, not a good mix, as it turns out. Teyla always had her nose in a book and daydreamed about someday creating her own worlds. She is now married, mostly grown up, and has seven kids, including a two-year-old, so life at her house can be very interesting (and loud), but writing keeps her sane. She thrives on the energy, inspiration, and daily amusement offered by her children. Grabbing any snatch of free time from her hectic life, Teyla writes novels, often with a child on her lap. She loves guns, martial arts, and belly dancing. Teyla writes urban fantasy, paranormal romance, and science fiction. She also writes romance and romantic suspense under the name Rachel Branton.
