Digital Video Surveillance and Security By Anthony C. Caputo

Digital Video Surveillance & Security provides a blueprint for the IP-based electronic security system clients need, allowing security professionals to protect their client's place of business or home. The author gives detailed plans on the best camera position, areas of coverage, and hardware and software to select to maximize the effectiveness of newer lower-cost networked technologies. Clear, step-by-step descriptions and detailed illustrations describe the integration of such components as the current or new security system, door and window sensors, or other access controls, offering the capability of instantly launching a video of the area under surveillance on a computer or HDTV.

Today's digital video surveillance solutions are networked, digitally archived, offering granular, managed accessibility from anywhere (any office, home, PDA, or smart phone), and providing interoperability and simple scalability. With recent advances in technology, DVS is economically attainable for most businesses. Security consultants can use this information to guide their clients in making budget-friendly choices of design and equipment and assembling the optimal system for their needs. Systems installers can use this step-by-step illustrated guide to master this crucial new technology.

- *Vendor-neutral comparisons of camera equipment and recording options
- *Common sense approach
- *Highly visual presentation
- *Case studies and descriptions of best practices
- *Step-by-step guides
- *Easy to read diagrams and schematics

Editorial Review

Review

"This book provides all you need to know about digital video security and more, furnishing a detailed study of digital video monitoring. The market's growth and dynamism makes this text a relevant and welcome one for security professionals.... This book is extremely educational and should be consulted by any security professional interested in the transition from analog to digital video."-- Jack F. Dowling, CPP, PSP, *Security Management*, April 2011

About the Author

Anthony C. Caputo has been a senior technical consultant since 1998, with eight years of hands-on DVS and CCTV experience, and over eighteen years of networking and digital video experience. Worked as a DVS Architect and system engineer in public transportation, education, retail and municipals having worked on homeland security and surveillance projects including City of Chicago; New York City; Dallas; Rochester; and Basra, Iraq. He is also the published author of McGraw-Hill's *Build Your Own Server* and has presented at conferences on the importance of a network security plan, and his multi-dimensional view for troubleshooting networked video. Caputo also provided the Keynote Speech "The Future of CCTV" at CCTV World 2011 Conference in Sydney Australia in December 2011.

He is a subject matter expert and is certified in a number of technology disciplines, including project management with PMI (PMP), CCNA, CWNA, Genetec Omnicast and Security Center, Firetide Mesh Network Engineer, object-oriented analysis and design for business process improvement, and a Microsoft Certified Professional. He holds a certification as an IBM e-business Solution Advisor, helping IBM write the exam for certification and in encryption and security from the University of Chicago.

Users Review
