Modern Business Statistics with Microsoft Office Excel, 4th Edition By David R. Anderson, Dennis J. Sweeney, Thomas A. Williams

Use MODERN BUSINESS STATISTICS, 4th Edition to gain a strong conceptual understanding of statistics with a balance of real-world applications and focus on the integrated strengths of Microsoft Excel 2010. To ensure your understanding, this best-selling, comprehensive text carefully discusses and clearly develops each statistical technique in a solid application setting. Immediately after each easy-to-follow presentation of a statistical procedure, a subsection discusses how to use Excel to perform the procedure. This integrated approach emphasizes the applications of Excel while maintaining a focus on the statistical methodology. Step-by-step instructions and screen captures further clarify the presentation to ensure your understanding. A wealth of timely business examples, proven methods, and application exercises clearly demonstrate how statistical results provide insights into business decisions and present solutions to contemporary business problems. The book's class-tested problem-scenario approach emphasizes how you can apply statistical methods to today's practical business situations. New case problems and self-tests throughout this edition allow you to check your personal understanding. Additional learning resources, including CengageNOW for online homework assistance and a complete support Website, provide everything you need for the Excel 2010 skills and understanding of business statistics that is SIMPLY EXCELLENT!

Editorial Review

About the Author

Dr. David R. Anderson is a textbook author and Professor Emeritus of Quantitative Analysis in the College of Business Administration at the University of Cincinnati. He has served as head of the Department of Quantitative Analysis and Operations Management and as Associate Dean of the College of Business Administration. He was also coordinator of the College's first Executive Program. In addition to introductory statistics for business students, Dr. Anderson has taught graduate-level courses in regression analysis, multivariate analysis, and management science. He also has taught statistical courses at the Department of Labor in Washington, D.C. Professor Anderson has received numerous honors for excellence in teaching and service to student organizations. He is the coauthor of ten textbooks related to decision sciences and actively consults with businesses in the areas of sampling and statistical methods. Born in Grand Forks, North Dakota, he earned his BS, MS, and PhD degrees from Purdue University.

Dr. Dennis J. Sweeney is a leading textbook author, Professor Emeritus of Quantitative Analysis, and founder of the Center for Productivity Improvement at the University of Cincinnati. He also served five years as head of the Department of Quantitative Analysis and four years as Associate Dean of the College of Business Administration. In addition, Dr. Sweeney has worked in the management science group at Procter & Gamble and has been a visiting professor at Duke University. Dr. Sweeney has published more than 30 articles in the area of management science and statistics. The National Science Foundation, IBM, Procter & Gamble, Federated Department Stores, Kroger, and Cincinnati Gas & Electric have funded his research, which has been published in Management Science, Operations Research, Mathematical Programming, Decision Sciences, and other respected journals. Dr. Sweeney is the co-author of ten textbooks in the areas of statistics, management science, linear programming, and production and operations management. Born in Des Moines, Iowa, he earned a B.S. degree from Drake University, graduating summa cum laude. He received his M.B.A. and D.B.A. degrees from Indiana University, where he was an NDEA Fellow.

Dr. Thomas A. Williams is a well respected textbook author and Professor Emeritus of Management Science in the College of Business at Rochester Institute of Technology, where he was the first chairman of the Decision Sciences Department. He taught courses in management science and statistics, as well as graduate courses in regression and decision analysis. Before joining the College of Business at RIT, Dr. Williams served for seven years as a faculty member in the College of Business Administration at the University of Cincinnati, where he developed the undergraduate program in Information Systems and served as its coordinator. The co-author of 11 leading textbooks in the areas of management science, statistics, production and operations management, and mathematics, Dr. Williams has been a consultant for numerous Fortune 500 companies and has worked on projects ranging from the use of data analysis to the development of large-scale regression models. He earned his B.S. degree at Clarkson University and completed his graduate work at Rensselaer Polytechnic Institute, where he received his M.S. and Ph.D. degrees.

Users Review

From reader reviews:

Charles Duda:

As people who live in the modest era should be revise about what going on or details even knowledge to

make them keep up with the era which is always change and make progress. Some of you maybe may update themselves by reading books. It is a good choice in your case but the problems coming to you is you don't know which one you should start with. This Modern Business Statistics with Microsoft Office Excel, 4th Edition is our recommendation to cause you to keep up with the world. Why, since this book serves what you want and want in this era.

Francisco London:

Do you one of people who can't read pleasant if the sentence chained inside straightway, hold on guys that aren't like that. This Modern Business Statistics with Microsoft Office Excel, 4th Edition book is readable simply by you who hate those straight word style. You will find the details here are arrange for enjoyable reading experience without leaving possibly decrease the knowledge that want to give to you. The writer involving Modern Business Statistics with Microsoft Office Excel, 4th Edition content conveys prospect easily to understand by most people. The printed and e-book are not different in the content but it just different in the form of it. So , do you continue to thinking Modern Business Statistics with Microsoft Office Excel, 4th Edition is not loveable to be your top listing reading book?

Kelly Brooks:

Playing with family in the park, coming to see the marine world or hanging out with friends is thing that usually you might have done when you have spare time, after that why you don't try issue that really opposite from that. 1 activity that make you not sensation tired but still relaxing, trilling like on roller coaster you are ride on and with addition details. Even you love Modern Business Statistics with Microsoft Office Excel, 4th Edition, you can enjoy both. It is excellent combination right, you still desire to miss it? What kind of hangout type is it? Oh can occur its mind hangout guys. What? Still don't understand it, oh come on its called reading friends.

Charles Collier:

As a university student exactly feel bored to be able to reading. If their teacher inquired them to go to the library or even make summary for some book, they are complained. Just small students that has reading's internal or real their leisure activity. They just do what the teacher want, like asked to the library. They go to right now there but nothing reading significantly. Any students feel that studying is not important, boring and also can't see colorful images on there. Yeah, it is for being complicated. Book is very important for you personally. As we know that on this period, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore this Modern Business Statistics with Microsoft Office Excel, 4th Edition can make you feel more interested to read.
