Science and Civilisation in China, Volume 5: Chemistry and Chemical Technology, Part 4, Spagyric Discovery and Invention: Apparatus, Theories and Gifts By Joseph Needham, Ho Ping-Yu, Lu Gwei-Djen, Nathan Sivin

The fifth volume of Dr Needham's immense undertaking, like the fourth, is subdivided into parts for ease of assimilation and presentation, each part bound and published separately. The volume as a whole covers the subjects of alchemy, early chemistry, and chemical technology (which includes military invention, especially gunpowder and rockets; paper and printing; textiles; mining and metallurgy; the salt industry; and ceramics).

Editorial Review

Review

"[An] astonishing and enduring study...[Needham brings] depth of emotion and technical finesse to his task."
Jonathan Spence, New York Review of Books

"Perhaps the greatest single act of historical synthesis and intercultural communication ever attempted by one man."

Laurence Picken, Cambridge University

About the Author

Joseph Needham FRS (1900-1995) was the founder of the Science and Civilisation in China project.

Kenneth Girdwood Robinson joined Joseph Needham in 1979 in Cambridge to help him complete the unpublished volumes of Science and Civilisation in China, and wrote several of the pieces included in the present volume.

Users Review

From reader reviews:

Dorothy Payne:

In this 21st one hundred year, people become competitive in every single way. By being competitive currently, people have to do something to make these people survive, being in the middle of typically the crowded place and notice by means of surrounding. One thing that sometimes many people have underestimated the item for a while is reading. That's why, by reading a e-book your ability to survive enhance then having chance to remain than other is high. In your case who want to start reading any book, we give you this Science and Civilisation in China, Volume 5: Chemistry and Chemical Technology, Part 4, Spagyric Discovery and Invention: Apparatus, Theories and Gifts book as nice and daily reading reserve. Why, because this book is greater than just a book.

James Cooper:

A lot of people always spent their very own free time to vacation or even go to the outside with their family or their friend. Are you aware? Many a lot of people spent these people free time just watching TV, as well as playing video games all day long. If you want to try to find a new activity that is look different you can read a new book. It is really fun to suit your needs. If you enjoy the book which you read you can spent all day every day to reading a book. The book Science and Civilisation in China, Volume 5: Chemistry and Chemical Technology, Part 4, Spagyric Discovery and Invention: Apparatus, Theories and Gifts it is quite good to read. There are a lot of folks that recommended this book. These people were enjoying reading this book. If you did not have enough space to bring this book you can buy often the e-book. You can more simply to read this book out of your smart phone. The price is not to fund but this book possesses high quality.

Mattie Martin:

In this period of time globalization it is important to someone to receive information. The information will make anyone to understand the condition of the world. The condition of the world makes the information simpler to share. You can find a lot of personal references to get information example: internet, paper, book, and soon. You can view that now, a lot of publisher that will print many kinds of book. The particular book that recommended to you is Science and Civilisation in China, Volume 5: Chemistry and Chemical Technology, Part 4, Spagyric Discovery and Invention: Apparatus, Theories and Gifts this reserve consist a lot of the information in the condition of this world now. This particular book was represented just how can the world has grown up. The vocabulary styles that writer use to explain it is easy to understand. The writer made some exploration when he makes this book. That's why this book suitable all of you.

Philip Martin:

As we know that book is very important thing to add our understanding for everything. By a reserve we can know everything we would like. A book is a pair of written, printed, illustrated as well as blank sheet. Every year ended up being exactly added. This book Science and Civilisation in China, Volume 5: Chemistry and Chemical Technology, Part 4, Spagyric Discovery and Invention: Apparatus, Theories and Gifts was filled about science. Spend your extra time to add your knowledge about your scientific research competence. Some people has various feel when they reading a book. If you know how big benefit from a book, you can feel enjoy to read a reserve. In the modern era like at this point, many ways to get book that you wanted.
