### The Nation and Its Fragments: Colonial and Postcolonial Histories (Princeton Studies in Culture/Power/History) By Partha Chatterjee

In this book, the prominent theorist Partha Chatterjee looks at the creative and powerful results of the nationalist imagination in Asia and Africa that are posited not on identity but on difference with the nationalism propagated by the West. Arguing that scholars have been mistaken in equating political nationalism with nationalism as such, he shows how anticolonialist nationalists produced their own domain of sovereignty within colonial society well before beginning their political battle with the imperial power. These nationalists divided their culture into material and spiritual domains, and staked an early claim to the spiritual sphere, represented by religion, caste, women and the family, and peasants. Chatterjee shows how middle-class elites first imagined the nation into being in this spiritual dimension and then readied it for political contest, all the while "normalizing" the aspirations of the various marginal groups that typify the spiritual sphere.

While Chatterjee's specific examples are drawn from Indian sources, with a copious use of Bengali language materials, the book is a contribution to the general theoretical discussion on nationalism and the modern state. Examining the paradoxes involved with creating first a uniquely non-Western nation in the spiritual sphere and then a universalist nation-state in the material sphere, the author finds that the search for a postcolonial modernity is necessarily linked with past struggles against modernity.

## **Editorial Review**

Review

### **One of *Choice's* Outstanding Academic Titles for 1994**

"[This] is a work of magisterial erudition, the product of a mind working at the fullest command of its critical and creative powers . . . destined to become a landmark, not just in its field but in that most important of histories which is the evolving narrative of our self-awareness."--*The Calcutta Telegraph*

From the Back Cover

"An original and powerful analysis of the emergence of anticolonial nationalism and the postcolonial state. . . . This is not merely a book on nationalism in India with some 'comparative' implications. Instead, it presents the historical case of colonial nationalism to challenge the Eurocentricity of certain basic categories--the nations-state, modernity, and indeed history itself."--**Gyan Prakash, Princeton University**
