Eucalyptus (Medicinal and Aromatic Plants - Industrial Profiles) By John J.W. Coppen

Eucalyptus, a genus of over 800 species, is a multiproduct crop par excellence. Not only is it grown for timber, pulp and fuelwood, but it has numerous medicinal and aromatic properties. Since the first commercial distillation of eucalyptus oil 150 years ago, a vast array of eucalyptus-based products has entered the marketplace, mainly for pharmaceutical, fragrance and flavor use. Eucalyptus provides an invaluable reference for all those with an interest in Eucalyptus - in academia and industry alike, for researchers as well as producers, processors, importers and end users - but there are also issues discussed and lessons learned that extend to medicinal and aromatic plants. Contents Part 1. General Aspects 1. Botany of the Eucalypts 2. Eucalyptus, Water and the Environment 3. Eucalypts in Cultivation: An Overview 4. Genetic Improvement of Eucalypts: With Special Reference to Oil-Bearing Species 5. Eucalyptus Chemistry 6. Distillation of Eucalyptus Leaf Oils. Theory and Practice Part 2. Cultivation and Production of Eucalypts Around the World: With Special Reference to the Leaf Oils 7. Cultivation and Production of Eucalypts in Australia: With Special Reference to the Leaf Oils 8. Cultivation and Production of Eucalypts in the People's Republic of China: With Special Reference to the Leaf Oils 9. Eucalyptus, a genus of over 800 species, is a multiproduct crop par excellence. Not only is it grown for timber, pulp and fuelwood, but it has numerous medicinal and aromatic properties. Since the first commercial distillation of eucalyptus oil 150 years ago, a vast array of eucalyptus-based products has entered the marketplace, mainly for pharmaceutical, fragrance and flavor use. Eucalyptus provides an invaluable reference for all those with an interest in Eucalyptus - in academia and industry alike, for researchers as well as producers, processors, importers and end users - but there are also issues discussed and lessons learned that extend to medicinal and aromatic plants.

Contents

Part 1. General Aspects

1. Botany of the Eucalypts
2. Eucalyptus, Water and the Environment
3. Eucalypts in Cultivation: An Overview
4. Genetic Improvement of Eucalypts: With Special Reference to Oil-Bearing Species
5. Eucalyptus Chemistry
6. Distillation of Eucalyptus Leaf Oils. Theory and Practice

Part 2. Cultivation and Production of Eucalypts Around the World: With Special Reference to the Leaf Oils

7. Cultivation and Production of Eucalypts in Australia: With Special Reference to the Leaf Oils
8. Cultivation and Production of Eucalypts in the People's Republic of China: With Special Reference to the Leaf Oils
9. Cultivation and Production of Eucalypts in Africa: With Special Reference to the Leaf Oils
10. Cultivation and Production of Eucalypts in South America: With Special Reference to the Leaf Oils
11. Cultivation and Production of Eucalypts in India: With Special Reference to the Leaf Oils

Part 3. Biological and End-Use Aspects

12. Chemistry and Bioactivity of the Non-Volatile Constituents of Eucalyptus
13. Antimicrobial Activity of Eucalyptus oils
14. Eucalyptus in Insect and Plant Pest Control: Use as a Mosquito Repellent and Protectant of Stored Food Products; Allelopathy
15. Chemical Ecology of Herbivory in Eucalyptus: Interactions Between Insect and Mammalian Herbivores and Plant Essential Oils
16. Eucalyptus Oil Products: Formulations and Legislation
17. Production, Trade and Markets for Eucalyptus Oils
18. Research Trends and Future Prospects

Appendices:

1. Sources of Eucalyptus Seed
2. Estimates of Eucalypt Plantations Worldwide
3. Advice to a Prospective New Producer of Eucalyptus Oil or Other Leaf Extractive
4. Composition of Some Commercially Distilled Eucalyptus Oils
5. Quality Criteria and Specifications of Eucalyptus Oils
6. Packaging and Labeling Requirements for the Handling and Transportation of Eucalyptus Oils
7. Useful Addresses

Editorial Review

Review

"[This book] provides in-depth, scholarly information on one economically important medicinal or aromatic plant. This is a well-written volume that covers a wide range of information about eucalyptus, from the botanical, agricultural and chemical aspects to its production and role in the world economy. The authors are recognized scholars in their fields . Each chapter contains an extensive list of references . This book is recommended for academic and research libraries with botanical and agricultural collections." - E-Streams, Vol. 7, No. 4, April 2004 "Each chapter is written by an expert in their particular field and thus the whole volume presents comprehensive factual data on all aspects of a selected genus . In all, this is a gem of a book that has much to offer across a broad range of disciplines connected to the essential oil and medicinal plant world." - The International Journal of Aromatherapy, Vol. 13, Issue 2-3, 2003

About the Author

John J.W. Coppen is a consultant of the Food and Agriculture Organization of the United Nations.

Users Review

From reader reviews:

Bryan Smith:

Reading a e-book can be one of a lot of action that everyone in the world enjoys. Do you like reading book and so. There are a lot of reasons why people love it. First reading a book will give you a lot of new details. When you read a book you will get new information because book is one of several ways to share the information or maybe their idea. Second, reading through a book will make a person more imaginative. When you reading through a book especially fiction book the author will bring someone to imagine the story how the personas do it anything. Third, you are able to share your knowledge to some others. When you read this Eucalyptus (Medicinal and Aromatic Plants - Industrial Profiles), you could tells your family, friends and soon about yours e-book. Your knowledge can inspire the others, make them reading a guide.

John Dearman:

Do you have something that you like such as book? The book lovers usually prefer to choose book like comic, limited story and the biggest an example may be novel. Now, why not attempting Eucalyptus (Medicinal and Aromatic Plants - Industrial Profiles) that give your entertainment preference will be satisfied by means of reading this book. Reading habit all over the world can be said as the means for people to know world better then how they react towards the world. It can't be said constantly that reading routine only for the geeky man or woman but for all of you who wants to possibly be success person. So , for all of you who want to start reading as your good habit, you may pick Eucalyptus (Medicinal and Aromatic Plants - Industrial Profiles) become your own personal starter.

Charles Anderson:

Don't be worry should you be afraid that this book can filled the space in your house, you could have it in e-book technique, more simple and reachable. This particular Eucalyptus (Medicinal and Aromatic Plants - Industrial Profiles) can give you a lot of buddies because by you looking at this one book you have factor that they don't and make an individual more like an interesting person. This kind of book can be one of one step for you to get success. This publication offer you information that probably your friend doesn't understand, by knowing more than additional make you to be great men and women. So , why hesitate? Let me have Eucalyptus (Medicinal and Aromatic Plants - Industrial Profiles).

Faye Springer:

Book is one of source of expertise. We can add our knowledge from it. Not only for students but native or citizen require book to know the revise information of year to be able to year. As we know those publications have many advantages. Beside all of us add our knowledge, may also bring us to around the world. By book Eucalyptus (Medicinal and Aromatic Plants - Industrial Profiles) we can consider more advantage. Don't you to be creative people? To become creative person must want to read a book. Merely choose the best book that appropriate with your aim. Don't always be doubt to change your life at this time book Eucalyptus (Medicinal and Aromatic Plants - Industrial Profiles). You can more pleasing than now.
