Manufacturing Data Structures: Building Foundations for Excellence with Bills of Materials and Process Information By Jerry Clement, Andy Coldrick, John Sari

Manufacturing Data Structures "Comprehensive yet easy-to-read. Manufacturing Data Structures is filled with anecdotes, yet stresses the importance of maintaining data accuracy. It is valuable reading for all manufacturing managers." Jim Carnall Manufacturing Manager, Eastman Kodak "An entertaining and informative look at an important aspect of day to day business in the MRP II environment. It clearly shows how data structuring methodology can be directly applied to process industries such as the Personal Products/Health and Beauty business." Jeff L. Stevens Manager, Packaging Sciences, Chesebrough-Ponds Canada "Manufacturing Data Structures shows, in a very practical way, how manufacturing data can be used as a competitive weapon. It's a comprehensive guide, filled with solutions to everyday problems." Jim Hendrickson Plant Manager, Reckitt & Colman "An excellent book. Very useful on the subject of data foundations for manufacturing. It has suggested further opportunities for improvement in my own organisation." R.A. Watson Rolls-Royce Motor Cars "Manufacturing Data Structures will be of immense value to the practitioner." Chris Cage ICI Pharmaceuticals

Editorial Review

From the Publisher

The final word on effectively managing the planning and control of information that's essential to making an operation competitive and market responsive. A practical guide to the subject, this book shows manufacturers how to build accurate and complete information foundations with bills of material and routings.

From the Inside Flap

Manufacturing Data Structures Jerry Clement, Andy Coldrick and John sari In Today's competitive manufacturing environment, having the right planning and control information is essential. Manufacturing Data Structures is the final word on effectively creating and managing this vital aspect of every manufacturing business. Packed with the latest techniques, it shows companies how to build accurate and complete data foundations with bills of materials and routings. Each of the following are among the important areas discussed in an easy-to-follow, step-by-step approach:

- Using bills of materials and routings to plan and control resources for manufacturing
- Implementing a coherent data system designed to support all company functions
- Ensuring the accuracy of critical information
- Simplifying and "flattening" bills of materials and routings
- Planning for custom product manufacturing or product remanufacturing
- Managing engineering change control
- Formulating a data control and planning system for process businesses
- Devising continuous improvement techniques for both job shops and flow shops

Users Review

From reader reviews:

Margaret Clayton:

The event that you get from Manufacturing Data Structures: Building Foundations for Excellence with Bills of Materials and Process Information could be the more deep you excavating the information that hide inside words the more you get thinking about reading it. It does not mean that this book is hard to understand but Manufacturing Data Structures: Building Foundations for Excellence with Bills of Materials and Process Information giving you joy feeling of reading. The author conveys their point in particular way that can be understood simply by anyone who read this because the author of this publication is well-known enough. This specific book also makes your own vocabulary increase well. Therefore it is easy to understand then can go along with you, both in printed or e-book style are available. We suggest you for having this specific Manufacturing Data Structures: Building Foundations for Excellence with Bills of Materials and Process Information instantly.

Erin Weiss:

This book untitled Manufacturing Data Structures: Building Foundations for Excellence with Bills of Materials and Process Information to be one of several books this best seller in this year, that is because when you read this reserve you can get a lot of benefit upon it. You will easily to buy that book in the book store or you can order it via online. The publisher in this book sells the e-book too. It makes you quickly to read this book, as you can read this book in your Mobile phone. So there is no reason for your requirements to past this guide from your list.

Amber Payne:

The actual book Manufacturing Data Structures: Building Foundations for Excellence with Bills of Materials and Process Information has a lot of information on it. So when you make sure to read this book you can get a lot of benefit. The book was authored by the very famous author. Tom makes some research previous to write this book. That book very easy to read you will get the point easily after scanning this book.

Helen Noyola:

Reading a book being new life style in this season; every people loves to study a book. When you go through a book you can get a wide range of benefit. When you read textbooks, you can improve your knowledge, mainly because book has a lot of information upon it. The information that you will get depend on what forms of book that you have read. If you need to get information about your examine, you can read education books, but if you want to entertain yourself you are able to a fiction books, these kinds of us novel, comics, along with soon. The Manufacturing Data Structures: Building Foundations for Excellence with Bills of Materials and Process Information will give you new experience in studying a book.
