## The Tain of the Mirror: Derrida and the Philosophy of Reflection By Rodolphe Gasché

Deconstruction is no game of mirrors, revealing the text as a play of surface against surface. Its more radical philosophical effort is to get behind the mirror and question the very nature of reflection. *The Tain of the Mirror* (tain names the tinfoil, or lusterless back of the mirror) explores that gritty surface without which no reflection would be possible. Gasche does what no one has done before in many discussions of Derrida, namely to tie his work in an authoritative way to its origins in the history of the criticism of reflexivity.

### **Editorial Review**

From Library Journal

This challenging, difficult book will be accessible only to those familiar with phenomenology and continental philosophy, as well as the history of philosophy back to the ancients. Gasche demonstrates a masterful grasp of all these areas as he elucidates those aspects of Derrida's thinking on "deconstruction" that relate to "reflexivity" the traditional philosophical quest for "the ultimate foundation of what is." Given the complexity and breadth of the undertaking, and the necessity of dealing with the technical jargon found in such figures as Kant, Hegel, Husserl, Heidegger, Ricoeur, etc., Gasche's exposition is admirably fluid and clear. For all collections serving scholars in the pertinent fields. Leon H. Brody, U.S. Office of Personnel Management Lib. , Washington, D.C.

Review

A brilliant book that holds more for students of philosophy or literature than any other single work on. (J. W MacInnes *Choice*)

A formidable book ...[A] splendidly full and orderly synthesis of Derrida's thought, which makes a meticulous case for him as a philosopher of real substance, given the radical nature of his investigations in the philosophies of language and of meaning. (John Sturrock *London Review of Books*)

A challenging book . . . It is beautifully organized and clear throughout, and will repay extensive study. Gasche's success in situating Derrida in relation to the philosophical tradition is such that it should make Derrida's thought unavoidable (incontournable, Derrida might say) for anyone concerned, today, with the history of philosophy. (Christopher Fynsk *Review of Metaphysics*)
